▶▶▶ **TRANSFER APPLICATION**

- ▶ Print the picture on the glossy side of the paper.
- ▶ Cut off the picture as exactly as possible.
- ▶ Dip the picture around 30 seconds in water. The paper rolls up a little bit.
- ▶ Rub it carefully between the fingers in order to take off the carrier tape.
- ▶ Put the paper on the support and brush it with the fingers or a piece of plastic to avoid the bubbles of air.
- ▶ You will get a better result if you wipe off the water before letting dry three hours long.
